JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

bill of health; October 8, the British steamship *Gulf of Venice*, coal laden, with 41 in the crew, en route from Townsville to Olongapo, was granted a supplemental bill of health; and October 9, the British steamship *Imani*, with 67 in the crew, en route from New Castle to Cebu and Iloilo, was granted a supplemental bill of health.

TURKEY.

Report from Bagdad—Measures against spread of plague removed—Summary of plague from date of outbreak, May 9.

Consul Magelssen reports, September 28:

This office is in receipt of a circular from the local bureau of health advising that inasmuch as no cases of plague have been reported in Bagdad during the past two weeks, the sanitary council at Constantinople has removed all measures that were taken to prevent the spread of the disease from this city.

Since the appearance of plague, May 9, 112 cases and 68 deaths have been officially reported.
